

UCD CENTRE FOR EMERGENCY MEDICAL SCIENCE IMMEDIATE CARE TRAUMA COURSE (IRISH HORSERACING REGULATORY BOARD)

DATE: SATURDAY 12TH MAY 2018
VENUE: MIDLANDS PARK HOTEL, JESSOP STREET PORTLAOISE

This course has been provided by UCD Centre for Emergency Medical Science since 2010 and brings the IHRB trauma training course in line with the range of Immediate Care Courses delivered by UCD. Underpinning the course are the Clinical Practice Guidelines (CPG) of the Pre-Hospital Emergency Care Council (PHECC).

Courses are practical, hands on, and with a focus on shared experience. Faculty is drawn from UCD staff, HSE paramedics and doctors with experience in providing emergency care at horseracing events.

It is strongly recommended that candidates have done a Basic Life Support (BLS) course within the past two years. BLS courses are available through UCD CEMS: dates available on the website or on request.
